SUBJECT ALLOCATION

- Subject Allocation is marked as independent study time for students in designated spaces.
- Students must ensure that they carry books and study material as per the day's timetable.
- Students will also be given a combination of subject worksheets, past papers and practice material to solve.
- Timetable for the same will be shared with the students.
- This time should also be used by students to do other productive academic work like preparing a study plan, preparing notes, revision etc.

DOUBT SOLVING SESSIONS

- To set our learner's goals higher and by working individually with each learner to optimize their potential.
- Through the subject allocation and independent study time, students are expected to make notes and list down all areas of concern.
- The students should bring the same to the immediate attention of the concerned teacher so the doubts can be addressed.
- Smaller batches of practice classes will be arranged with the respective subject teacher.

EARLY EXIT

As per the school policy early exit for students is not advisable.

If a child has two consecutive periods for early exit, then only he/she will be allowed. If it is one period only then there won't be an early exit signed.

We expect the students to be in school till the end of the school day and if free they should be with their teachers for doubt solving.
